

Recuptex Therapy Rug

Recuptex Therapy Rug

The Bucas Recuptex Therapy rug is created from a patented 21st century fabric. Made from the finest stainless steel yarn in the world.

Recuptex Outer

Recuptex Yarn

The webbing acts like a Faraday Cage, reflecting the magnetic fields created inside the body. Preserving these fields stimulates blood circulation and oxygen flow in the horse's body/back, which heals and reduces both swelling and inflammation and promotes faster healing.

Bucas Recuptex Therapy rug is the ideal choice for treating horses with chronic arthritis or back problems and helps to accelerate the recovery process in a natural protected environment. The new patented Snap-lock magnetic front and internal surcingles help keep the rug in place.

The Recuptex Therapy rug developed by Bucas is a trustworthy and highly technological equine rug which no horse should be without.

Internal Surcingles

Snap-lock fastening

Attachment for over rugs
